

The power to colour green

VAN DEN BERK TREES IN THE UK

Van den Berk Nurseries specialises in medium to very large sized trees and shrubs. With around 450 hectares and a range of 1600 species and cultivars, we are one of the largest nurseries in Europe. The trees end up in assorted locations such as city centres, business premises, parks and private gardens.

**All the knowledge.
Almost all of the trees.**

PLANTING DESIGN UNDER £25,000

ABOUT

Planting design that has been completed for less than £25,000. It needs to demonstrate an understanding of the setting of the garden, client's requirements, plants working well together, the structure of the planting design, and year-round interest.

WINNER

ETERNAL GARDEN | RAE WILKINSON DESIGN LTD

This year's winner is the Eternal Garden by Rae Wilkinson Design Ltd – which has been said to be “a wonderful place of sanctuary and healing for patients, family and staff.”

The goal of the hospital courtyard project was to transform the previously bare garden to a space full of lush green element, soft structure and character.

To achieve this, pleached trees were added which ran along the bespoke pergola line, enclosing the garden visually (for privacy), and ornamental trees which were added in the corner spaces to bring canopy, texture, form and softness, with the additional seasonality benefit.

Shrubs, perennials, grasses, ferns and bulbs were planted in drifts to create layers of texture and seasonal interest through the planted areas surrounding the paving and water features.

This planting scheme provided the required ‘green’ element to the courtyard, and the space in general now provides the green ‘hug’ it was designed to create.
